## What is it ?

Is understanding the language and terminology used by healthcare professionals making you feel like a deer in headlights? You are not alone! Learning how to navigate medical terminology is like learning a whole other language.

This workshop will help interpreters understand the foundations of medical terminology, their structure and meaning. The session includes the 300-page published handbook (pictured to the left). This enjoyable training is also invaluable preparation for anyone who seeks medical interpreter certification or continually works in a healthcare setting!

## This course will cover the following:

- Greek and Latin roots and affixes
- Anatomy and Physiology
- Diseases and Disorders
- Symptoms
- Medical Specialties
- Medical Abbreviations
- Language Registers

## Who Should Attend?

- Interpreters preparing for medical interpreter certification (NBCMI or CCHI)
- Experienced Medical Interpreters looking for a refresher
- ASL interpreters wanting to specialize in healthcare
- Any healthcare professional who wants to have a greater understanding of medical terminology.

## How to Register?

Register online at <http://www.muschealth.org/interpreter/registration.html>. Create and log into your account. In the search toolbar type course name and click on the course. Read the course information and select desired course date to enroll.
