

Coastal Connections

Do you or your patients need help finding resources for food, housing, employment, or other non-medical services?

Coastal Connections is an MUSC-initiated program that assists patients with accessing resources in the community to help promote overall well-being. Our volunteers work closely with patients and families to identify their needs, connect them with resources, and ensure appropriate follow up.

*****Referrals can be placed through HARP or on our website*****

Disclaimer: Coastal Connections is a free service for MUSC patients, their families, and members of the community. Participation in this program will have no effect on any other federal or state assistance services you may be receiving or your future eligibility. Participation in this program does not waive charges to today's emergency department or clinic visit. Enrollment in this program is voluntary and does not guarantee benefits. Clients can decline to participate at any time.
