

# A Diabetes-Friendly Guide to a HEALTHY THANKSGIVING PLATE

*Thanksgiving is all about eating...*...and being with your loved ones, of course! With so many foods and snacks available, how can you make healthy choices that will keep your blood sugar stable? Use this "Thanksgiving Plate" as a visual guide for what foods to choose and how to balance your plate. You'll also find some healthy eating tips, a few diabetes-friendly recipes, and a Holiday Eating Contract on the following pages. Work with your diabetes educator to discuss healthy Thanksgiving meal planning and tips for managing your blood sugar during the holidays.

## VEGETABLES

- ✦ Fill ½ of your plate with vegetables, such as carrots and green beans.
- ✦ Avoid casseroles or dishes that have heavy creams, sauces, butter or crusts.
- ✦ Other vegetables to consider include: broccoli, salad, brussel sprouts, or asparagus.
- ✦ If your table is low on vegetables, consider adding fruit to this half of your plate. Cranberries, baked apples, and pears are all good options.

## GRAINS

- ✦ Fill ¼ of your plate with starches such as stuffing and sweet potatoes.
- ✦ Other choices for this section may include: mashed or baked potatoes, rice pilaf, or corn pudding.
- ✦ Skip the bread or rolls!

## PROTEIN

- ✦ Fill ¼ of your plate with lean turkey slices (approx. 3-4oz).
- ✦ Avoid dark meat (including drumsticks!).
- ✦ Remove the skin from the turkey before eating.
- ✦ Instead of gravy, use a fruit-based relish for a special kick. See recipe on page 3.

## THANKSGIVING RECIPES

### MAPLE-ORANGE SWEET POTATO MASH

MAKES 6 SERVINGS

SERVING SIZE: ½ CUP

- ♦ 2 ½ lbs sweet potatoes (about 4 medium), peeled and cut into ½ inch cubes
- ♦ ¼ cup coarsely chopped walnuts
- ♦ 2 tsp sugar-free maple syrup, like Vermont Sugar-Free, divided
- ♦ 2 tsp grated fresh orange zest
- ♦ ¼ tsp ground cinnamon
- ♦ ¼ tsp kosher salt
- ♦ 1 Tbsp margarine
- ♦ 2 Tbsp fresh orange juice

1. Place the sweet potatoes in a saucepot with enough cold water to cover. Bring to a boil, reduce the heat and cook until tender, 10 to 13 minutes.
2. Add the chopped walnuts to a skillet over medium-high heat. Toss until the nuts are slightly toasted and fragrant, about 3 minutes. Remove the skillet from the heat. Drizzle 1 tsp sugar-free maple syrup over the nuts and toss to evenly coat. Remove the nuts from the skillet and set aside.
3. Drain the sweet potatoes and place them back in the saucepot on the hot burner with no heat. Let the sweet potatoes sit for 1 minute to let the excess water evaporate. Add the orange zest, cinnamon, salt, margarine, orange juice and remaining 1 tsp sugarfree maple syrup. Using a potato masher or fork, mash the potatoes until smooth, or until the desired consistency.
4. Remove to a warm serving bowl and garnish with the reserved nuts.

# Tips for a Happy Healthy THANKSGIVING

## THANKSGIVING TIPS FOR PEOPLE WITH DIABETES

- ✦ Don't skip meals or snacks earlier in the day to "save" calories and carbs for the Thanksgiving feast. If you skip meals, it may be harder to manage your blood sugar.
- ✦ Be sure to eat breakfast and if your main meal is later in the day, eat a small snack or meal at midday, so that your blood sugar will remain more stable.
- ✦ Take a look at the food on the whole table before you take any. Use the Thanksgiving Plate as a guide for choosing the foods you will eat.
- ✦ Limit the number of grains (starches) on your plate. It might be tempting to have some mashed potatoes, sweet potato casserole, and stuffing—however, limit them to  $\frac{1}{4}$  of your plate.
- ✦ Choose raw fruits and vegetables. Avoid vegetables in creams, gravies, and butter.
- ✦ Stick to calorie-free drinks such as water, tea, seltzer, or diet sodas instead of punch, or mixed drinks.
- ✦ Have a dessert, but take a small portion, eat slowly, and enjoy the taste.

### ARE YOU A GUEST AT A FAMILY MEMBER OR FRIEND'S HOUSE?

- ✦ Talk to the host before the day and find out what will be served.
- ✦ Offer to bring along a lower-calorie dish that you know you will enjoy. Check out our diabetes-friendly recipes.
- ✦ After the meal, try not to hang out near the food to avoid snacking. Find a comfortable spot across the room and focus on socializing instead of eating.

- ✦ After your meal, take a walk with family and friends. Exercise will get you moving, keep you focused on your goals, and give you a break from being surrounded by food. Exercise is also a great way to lower blood sugar levels.
- ✦ Plan a family game of tag, flag football, or Wii™...or any other game that will get everyone up and moving.
- ✦ If you eat too much on Thanksgiving, don't beat yourself up. Don't think you have failed, just make a plan to get back on track.
- ✦ Make a "Healthy Eating Contract" with yourself to set goals for your Thanksgiving meal. Clearly state how you will approach eating during the day, and what you want to accomplish. Be sure to sign and date this contract so that it's official.

### ARE YOU HOSTING THANKSGIVING DINNER?

- ✦ Make sure the menu includes lower-calorie foods, such as fruits, vegetables, and lean meats (such as turkey).
- ✦ Roasting is a good way to cook your turkey. Avoid frying or adding extra fat (like butter) during cooking.
- ✦ When you're cooking, avoid tasting the dish more than you need to. These calories add up and can affect your blood sugar.
- ✦ If you're the host of the dinner, clear the table and put unused food away to help guests avoid snacking.
