

ANNOUNCEMENT

With the peak of flu season and the presence of coronavirus (COVID-19) in the United States, MUSC Health Ambulatory Care wants to ensure the health and well-being of our patients, their families and our health care team.

Effective immediately, MUSC Health **is requiring all patients with cold or flu-like symptoms (fever, cough, sore throat, runny nose) to wear a mask while inside our clinics.**

If you are unable or unwilling to wear a mask, we ask that you instead complete an MUSC Health Virtual Care visit using the link or code below.

We thank you for your understanding and apologize for any inconvenience.
