The Professional Interpreter

A Training Program for Community Interpreters

This virtual course (for any language pairing) is designed for working interpreters and aspiring interpreters who want to work in community settings such as health care, education, and human and social services. The course covers fundamental topics by using role playing, activities and group exercises for hands-on learning and offering real-life demonstrations via video.

Who should register?

- Aspiring interpreters
- Language professionals
- Medical interpreters
- Bilingual staff in community settings
